SUMMARY

Highly skilled and motivated Front End Developer with a strong background in Developer Relations, Web 3.0, and Blockchain Technologies (Smart Contracts).

Seeking a challenging position in a dynamic organization where I can utilize my expertise to drive engagement and contribute to the growth of Web 3.0 ecosystems.

EXPERIENCE

Developer Relations

May '22 — Oct '23

Encode Club

- Conducted comprehensive social media analyses to discern trends, gauge brand sentiment, and evaluate the effectiveness of marketing initiatives. Collaborated closely with development teams to offer technical assistance, resolve issues, and collect user feedback for continuous product enhancement.
- Crafted and implemented community engagement strategies aimed at cultivating favorable interactions, enhancing brand visibility, and boosting user engagement.
- Orchestrated and engaged in developer gatherings, workshops, and hackathons to promote knowledge dissemination and foster a vibrant community ecosystem.

Snr Blockchain and Cryptocurrency Instructor.

Jan '20 — Jan '22

Learners Point Academy

- Designed and delivered comprehensive educational programs on blockchain technology and cryptocurrencies for diverse audiences, including professionals, students, and individuals with varying levels of technical expertise.
- Conducted engaging and interactive training sessions, workshops, and seminars to enhance participants' understanding of blockchain principles, consensus mechanisms, smart contracts, and decentralized finance.
- Utilized various teaching methodologies, including lectures, hands-on exercises, case studies, and group discussions, to facilitate active learning and promote practical application of knowledge.

Blockchain Developer

Jan '19 — Jan '20

Intellipaat

Remote

- Developed Ethereum smart contracts using Solidity programming language.
- Facilitated the formation of teams dedicated to smart contract and decentralized app development
- Designed, tested, and implemented customer-facing decentralized applications.
- Monitored and reported feedback and online reviews.
- Communicated application specifications and project details to all stakeholders, adapting team environments as needed. Proficient in explaining technical concepts to non-technical stakeholders.

Community Relations Manager

Jan '18 — Jan '19

Satoshi Punks

- Strategic Planning: Develop comprehensive plans for social media (Discord) and communication campaigns, ensuring alignment with organizational goals and target audience.
- Content Creation: Produce compelling text, image, and video content tailored to various social media platforms and professional accounts, driving engagement and brand visibility.
- Customer Engagement: Maintain a responsive approach by promptly addressing customer inquiries and feedback, fostering positive relationships and enhancing brand reputation.

SKILLS

Front End HTML, CSS, Javascript, Web API, ReactJS

Blockchain Data Structures & Algorithms, Smart Contracts, Distributed Systems, Testing & Debugging

Community Management Analytical skills, Problem-solving skills, Adaptability

PROJECTS

Airbnb Clone- Full Stack Project. [Link](#)

- Constructed a comprehensive Airbnb clone, showcasing proficiency in both front-end and back-end development principles. "Leveraging React for a dynamic user interface and Node.js for a robust server-side architecture..."
- Implemented a database solution (e.g. MongoDB) to efficiently store and manage listing data, user information, and booking details.

Bank Management App [Link](#)

- Implemented core banking functionalities like account management (creation, viewing, editing), funds transfer, bill pay, and transaction history.
- Designed a user-friendly and intuitive interface for a smooth and efficient banking experience.

AWARDS

Apr '24

Contributed on the Open-source Project and observed best code practices.

ALX -Software Engineering

Jun '24
